2024 THE SCIENCE OF CONSCIOUSNESS

TUCSON, ARIZONA | APRIL 22–27, 2024

Welcome to the 30th annual 'The Science of Consciousness' ('TSC') Conference, the world's largest, longest-running and premier gathering addressing fundamental questions regarding consciousness, the brain, reality and existence. TSC is organized and hosted by the Center for Consciousness Studies at the University of Arizona, and is an interdisciplinary conference emphasizing rigorous approaches to the study of consciousness and its place in the universe. Topical areas include neuroscience, philosophy, psychology, cognitive science, biology, quantum physics and quantum brain biology, cosmology, meditation, psychedelic and altered states, artificial intelligence/machine consciousness, the nature of reality, culture and experiential phenomenology. Held annually since 1994, TSC alternates yearly between Tucson, Arizona and various locations including Italy, Denmark, Japan, Sweden, Czech Republic, Hungary, Hong Kong, India, Finland, San Diego and Switzerland. This year our live participation and broadcast will take place at the Loews Ventana Canyon Resort, a beautiful eco-lodge in the hills above Tucson, Arizona.

TSC 2024 is a 6-day gathering consisting of 8 Workshops, 1 Symposium, 14 Plenary/Keynote Sessions, 30 Concurrent Sessions, 2 Poster Sessions and Exhibitor presentations, social, wellness, Poetry Slam and entertainment. We anticipate in person over 600 scientists, philosophers, educators, academicians, students, meditators, artists, interested public and seekers from around the world. Plenary and Keynote sessions, 2 workshops and the Monday evening Symposium will be live streamed virtually and uploaded for on-demand review.

We thank our sponsors, program committee, support staff, hosts, presenters, attendees, exhibitors and volunteers and all the Plenary and Keynote speakers for making TSC possible. We especially acknowledge the extraordinary efforts and many years of service of Abi Behar-Montefiore, Assistant Director of the Center for Consciousness Studies at the University of Arizona. Without Abi, The Center and TSC conferences would not be possible. Special thanks and appreciation to Edgar Mendoza and BioCommunications at the University of Arizona for their overall contribution to present this event through graphic design and production concepts over many years. To the entire staff and Group Managers at Loews Ventana Canyon Resort, thank you for all you do to make our program a success. To the Tucson-based Commotion Studios who were able to work with us on this intense program, thank you Matt George and Team for keeping us online and inline. Special thanks George Mashour.

Plenary bios, abstracts and exhibitor information can be found on the Center's Website. www.consciousness.arizona.edu

Sincerely,

Stuart Hameroff
